

THE TOWER.

THE TOWER

THE TOWER

overwhelmingly defeated in its first two games we have yet to hear the first person connected with

SIANDA

The figure consists of a 4x4 grid of 16 smaller plots, each showing a scatter plot or a similar data visualization. The plots are arranged in four rows and four columns. Each plot has a unique color scheme and data distribution, suggesting different experimental conditions or parameter settings. The overall layout is a grid-based interface for viewing multiple data series simultaneously.

unaware that they are victims of a social process that has been set in motion by the economic system.

A horizontal bar consisting of several small squares. From left to right, there are three orange squares, followed by a short gap, then one orange square, another short gap, and finally two yellow squares at the far right.
